

ENVIRONMENTAL POLICY.

Stadium MK have set out to commit organisational resources to energy management. We will work to reduce costs, minimise CO2 emissions, minimise environmental impact and where possible work towards using energy from sustainable resources within both the hotel and arena. Our environmental programme is driven by a committee of employees who are dedicated to bringing a variety of practices to the venue. We commit to comply with the requirements of the environmental legislation and approved codes of practice.

STATEMENT OF COMMITMENT 2021

- We commit to continuously seeking to improve our environmental and social performance
- We commit to reduce pollution, emissions and waste
- We commit to giving high priority to energy efficient investment to reduce the use of energy, waste and other resources
- We commit to assisting our customers to use products and services in an environmentally sensitive way
- We commit to establishing a monitoring and targeting system in our venue
- We commit to continuing to maintain a network of Energy Champions
- We commit to continue raising awareness, encouraging participation and training employees in sustainable business practices
- We commit to improved communication across our venue through our Energy Champions and company energy newsletter
- We have joined the Green Tourism Business Scheme as an indicator of our sustainable practices and commitment to continuous improvement

OUR ACHIEVEMENTS

- Push taps to minimise water wastage and leaks
- Installation of waterless urinals throughout Marshall Arena
